It has great atmospheric music and charming characters. It's very short but manages to pack so much into such a small span of time. I recommend it for a quiet winter night when you can spend an hour or so to get through it uninterrupted.

I'd highly recommend it.

P.S. it's worth a second playthrough, not only to collect the missing floating green fairie orbs but for some additional secrets as well.

. Nice Soundtrack. Gives a nice atmosphere to the cute game.
